Chip,  
As a point of clarification, do you mean the Word version of the draft RI when you requested the "original documents used to create the draft report."? If so, we can tee this up for Exec this coming Wednesday.

Thanks, Jim.

Subject: EPA request for word version of RI report

Bob and Jim,

As you are aware, EPA is currently reviewing the LWG's August 29, 2011 draft RI report for the Portland Harbor Superfund Site. This email is to request the original documents used to create the draft report. As we clarified with our previous request for the word version of the BHHRA report, it is not EPA's intent to take over completion of the RI Report from the LWG. EPA believes it will be most efficient for us to mark up the document with specific changes to expedite completion of our review and preparation of the final report by the LWG.

Please let us know if you have any questions regarding this request.

thanks  
Chip Humphrey  
EPA RPM
